16. Whether institutional data submitted to AISHE: Yes/No: Yes

Year: 2019-2020 Date of Submission: 09-01-2020

17. Does the Institution have Management Information System? Yes

If yes, give a brief description and a list of modules currently operational.(Max 500 words)

Yes. The College has maintained an efficient Management Information System in order to store, analyse and share data for appropriate functioning,

Some of the MIS Modules which are operational are as follows:

- 1) **Attendance:** Attendance of the students gets registered automatically with radio frequency detector technology (RFID), the service is outsourced to OPTRA. The instant message goes to parents of the absentees.
- 2) **Admission:** The database of students' admission is well maintained by the office with up-to-date configured system. Database like IA marks, Practical marks, etc. required by the University are shared with the University through its server and thereby College MIS is part of the University MIS.
- 3) **University Fees:** Fees (Admission, Examination and miscellaneous) are paid through online banking and the database is shared with University MIS.
- 4) **HRMS:** It is mandatory to use Human Resource Management System provided by the Department of Higher Education, Government of Karnataka, to process and maintain the salary records, promotions, increments, etc. of the employees appointed through the Department of Collegiate Education. Therefore College MIS is part of MIS of the state government.
- 5) **Scholarships and E-attestation:** Five faculty members are appointed and trained to work as E-Attestation Officers by Scholarship Department. These officers verify the documents enclosed by the applicants for SSP (State Scholarship Portal) and maintain the database of the scholarship application and disbursal.
- 6) **Finance and Accounts:** All expenditure records are computerised which augment immediate cross-checking and providing data for preparation of budget.

- 7) **Biometric Attendance:** The teaching staff report through iris and finger print biometric.
- 8) **Library Automation:** Library and Information Centre is partially automated. Bar code system is used in Library and Information Centre. There is e-Lib software for library information centre. To keep pace with modern developments in the digital era, the Library and Information Centre has access to e-journals which are available online with full text.
- 9) **Stakeholders:** Communication of important information to Stakeholders is made through college website and conventional notices. College Website, SMS service, use of whatsapp, and e-mail to the students, staff and other stakeholders are used as information system for the smooth functioning of the management and disseminating information to different stakeholders.
- 10) **CCTV surveillance:** This type of surveillance system puts the entire campus on the single screen view, which is observed by the Principal in his office. The view includes all the class-rooms, Library and Information Centre, Department of Physical Education and Sports, playground, front-gate of the college, office, corridors, and so on. The Systems are connected by internet and Wi-Fi.
- 11) **Whatsapp groups:** As per the requirement of present day Management Information System the teachers have created Whatsapp groups of students of each class. This plays a key role in sharing all kinds of official information and Classroom notes in the pdf and word format.
- 12) **Upgradation:** The College website is updated regularly with all the relevant information including the statutory requirements. College website <http://www.nehrucollegehubli.edu.in> displays every updated information.

CRITERION I – CURRICULAR ASPECTS

1.1 Curriculum Planning and Implementation

1.1.1 Institution has the mechanism for well planned curriculum delivery and documentation. Explain in 500 words

Nehru Arts, Science and Commerce College Hubballi affiliated to Karnatak University, Dharwad. Some of our faculty members have say in framing University syllabus as members of the board of studies. Curriculum in the college is planned for how to teach the subjects effectively. We plan it in two ways, the class room teaching and off the class room teaching method.

We have the Diploma and the certificate courses too. We have well planned mechanism for delivering curriculum. The syllabus of diploma courses in Urdu language and computer application is designed by National Council for Promotion of Urdu Language (NCPUL) of HRD, Govt. of India. The syllabus of certificate courses in mushroom culture is designed by the Botany department. We also offer various academic programmes through Karnataka State Open University (KSOU) in our campus. The calendar of events is planned by the IQAC of the college. Unitization of the syllabus is made to follow, which contains the tentative dates of completion of each unit mentioned in the syllabus and is estimated according to the number of hours allotted in syllabus for that unit and number of teaching hours available as per the time table prepared by the college. We teach syllabus through chalk and talk method. We also teach nonconventional way by making use of ICT tools, science models and charts. Learning of language also takes place in Language lab which helps the students to acquaint with phonetics and the correct accent of English language.

In a similar way the Commerce and Economics students use Computer lab as Commerce lab/Economics lab to get real time experience of Banking, Trade and Market. Learning also takes place through group discussion, interaction etc.

Periodically we organize the seminars and both in Classroom and laboratory, as per the schedule. In Physical sciences and Life sciences, the practical classes are vital in imparting the practical skills which are conducted regularly in well-equipped science Laboratories.

The process of evaluation of the students is done at regular intervals through unit tests. The examination committee will supervise the whole process of evaluation. The slow learners will be identified on the basis of poor performance.

Remedial classes are engaged for slow learners as per the schedule. Mentoring of the selected students is made by the faculty of all the departments. Apart from the academics the field visits are also organized which are included in our curriculum. Science students visit the established labs and industries, Commerce students visit industries and firms and Arts students make social survey and also visit history and archaeology museums and historical places. To place it in a nutshell the curriculum delivery planning is so made that a student from our college gets holistic and integrated personality developed by the time he walks out of the college.

Any system is incomplete without feedback and reformative mechanism. Therefore we follow the process of taking feedback from all the stake holders. We take necessary steps to improve upon the system in forthcoming academic year.

1.4 Feedback System

1.4.1 Whether structured feedback received from all the stakeholders.

1) Students	2) Teachers	3) Employers	4) Alumni	5) Parents
Yes	Yes	Yes	Yes	Yes

1.4.2 How the feedback obtained is being analyzed and utilized for overall development of the institution? (maximum 500 words)

The system designed and adopted is incomplete without the proper feedback and reformative mechanism. Therefore we follow the process of taking feedback from all the stake holders in order to take necessary steps to improve upon the system. A well planned structured feedback system is framed and followed to improve upon existing practices and to bring about the effectiveness in delivering curriculum. Feedback has been collected on regular basis from the students of both UG and PG, teachers, alumni, parents, and employers. Feedback is received on various aspects of curriculum.

Feedback form is framed by the expert committee and is well designed so as to include all the aspects of curriculum in structured format. Opinion of the stake holders about the process of admission, about the college prospectus, syllabus, effectiveness of delivery of the syllabus through conventional and nonconventional methods, evaluation process and communication system. The feedback is taken on mentoring process and remedial classes and the related aspects. We see that there will not be any kind of biasing on stakeholders while giving feedback and are free from any kind of biasing.

The Feedback is taken on the basis of grades given by the Students. Now the experts will analyse the response given by the students. They will identify the loopholes and as well as strengths of the system. The performance appraisal of the staff and faculty is effectively made using the feedback. The weakness of the system is brought to the notice of higher authorities to resolve. Also the best performer is given an award by the management. It helped us to increase the performance of the teachers and future development in enriching their knowledge, punctuality, language, mode of teaching methods etc. The management invites the teaching faculty to discuss the strategies to bring the changes wherever necessary.

The Feedback is collected from the Teachers, Employers, Alumni and Parents during meetings that are organized in the college. Suggestions and comments given by them are taken as the pointers to excel the academics. The feedback has been the source of strength. It has been helpful to cover the weak areas in academics and administration. Feedback serves a detective mechanism and has been an instrument to improve the quality of education.

2.3.2 Students mentoring system available in the institution? Give details. (maximum 500 words)

Our institution stands apart with a synchronised and meticulous mentor and mentee relationship. It is the best practice to assist the students in overcoming their weaknesses. Teachers zestfully analyse the psychology of the students. For this, they acquire knowledge from various sources like psychology books and the relevant websites. Teachers work hard to study the receptivity level of the students. And, accordingly they make their strategy plan to bring up the weak students. Following on this line, we conduct the Orientation Programme for the freshers. Herein, the students learn more about the institution. The Vision, the Mission, and the objectives of the institution are imported to them. Consequently, a hale and hearty relationship is developed between the mentor and mentee.

Mentoring is based on the following objectives:

- To acquire a healthy relationship between the teacher and the taught.
- To identify academically weak students and to nurture them accordingly.
- To inspire and strengthen the hands of academically strong students.
- To check the student dropout rates
- To train the students for competitive world.

At commencement of the academic year, we at our institution organize Orientation sessions/Fresher's day department wise. This is done in order to make the mentoring system reach the grassroot levels. The complete background and family history is taken into consideration. Accordingly, the students' capacity is interpreted and assessed. Records are maintained about the same by the concerned departments

Activities conducted in this concern are class tests/ surprise tests, seminars etc. Record is also maintained of the same. Through such like activities the growing performance of the students is reviewed. Teachers interact with the students through individual meetings is also done. In PTA meet, the parents are brought into the picture and the students' academic problems are solved.

The teachers prepare the list of the failures, slow learners, average and above average students after the results are declared. Accordingly, the concerned students are mentored in the respective departments. The teachers work over the failures and slow learners. Extra assignments are prepared for them to cope up with the other students in the classroom. Once or twice a month the concerned subject teachers mentor the students. Various competitions are organised for the students. The above average students are given incentive and are well prepared for the competition exams.

Outcome of the departmental mentoring system

- Teacher -student relationship has developed.
- Students have gone forth and presented papers at State Level and National Level Seminars

- Students have participated in quiz competitions, debates, presented papers with zeal and confidence and have fetched good results
- Students excellent performance can be observed in sports and tournaments, NSS and NCC

The mentoring process is pursued diligently by the teachers for three years' stay of the students in the campus. Career guidance is imported to the final year students.

2.5.2 Reforms initiated on Continuous Internal Evaluation (CIE) system at the institutional level (250 words)

The institution frames certain outlines to be followed in Continuous Internal Evaluation (CIE)

- Internal unit tests are conducted twice in every semester.
- Besides, surprise tests also are held in the class.
- Students are trained to participate in the debates, quiz competitions and seminars.
- Speaking and reading skills are encouraged
- Elocution, pick and speak, group discussion are the regular activities in the campus.
- Regularly students are stimulated to pursue their creative skills.
- The students who cannot cope up in the competitions are given special guidance by the teachers.
- CIE increases and boosts the talents of the students. It also helps the students to upgrade their academics.

Impact:

Significant improvement in the overall development of the students can be observed. Individual attention promotes the learning and grasping skills of the students. Their behaviour, attitude and the etiquettes are more refined due to the ardent efforts made to work over their academics and extracurricular activities. This CIE has helped to students to expand their interests in academic and extra co-curricular activities.

2.5.3 Academic calendar prepared and adhered for conduct of Examination and other related matters (250 words)

- Calendar of events of the institution is prepared well in advance before the college reopens for the academic year.
- Department wise calendar of events is also prepared by the faculty of respective departments.
- The students are asked to enrol for NCC and NSS.
- Orientation programme is conducted for the freshers of all the streams.
- Sunny Tharappan's Facilitator's Manuel is followed to conduct various activities for the orientation
- Nomination of student secretaries for College Debating Union and Physical Education Department is done on the basis of merit
- Teacher's Day, World Ozone Day, NSS Day, NCC Day, Gandhi Jayanthi, Aids Awareness Day, Swmi Vivekananda Jayanthi, National Voter's Day, and many more significant days are observed each year.
- 1st and 2nd internal tests are conducted as per the schedule given by the examination committee in the college
- Examinations and valuation are held according to the university calendar of events
- The Department of Physical Education and Sports conducts various indoor and outdoor games as per the schedule set.
- The College Debating Union conducts various extracurricular activities. Many association programmes and competitions are held under Ladies Association and various departments.
- Under the aegis of College Debating Union, the Annual Social Gathering is also held at the end of the academic year.

Decentralization :

Our Institution is decentralised by group of members appointed for a specific function by a larger group consisting of members of College Debating Union, Department of Physical Education, HOD's, NCC, NSS, IQAC, etc., by the Principal. Our Institution organises various realistic programmes such as Sports, Youth festival, Conferences curricular and extra-curricular activities. Other awareness programmes like Anti-sexual harassment cell, Anti-Tobacco Drug abuse, Traffic Rules and Regulations, Blood donation, Eye donation, etc., are conducted to bring about the awareness among the students.

Participative Management.

- Members of Institution involve themselves enthusiastically in all the activities.
- Our Management participate actively in the process of Admission and Administration.
- The financial budget of the Institution is done by the members of the Management, Principal and Office Superintendent.
- Parents-Teachers and Management meetings are conducted in the PTA to solve the problems of the students.
- Regular meetings of IQAC are conducted to finalise different programmes towards the betterment of the Institution.
- Institution has Alumni Association which conducts the meetings to know the Alumni progress.
- The NSS, NCC, Sports and Extra-curricular activities are held for the over-all development of students.
- Institution collects the feedback every year from the students and the stakeholders.

6.1.2 Does the institution have a Management Information System (MIS)?

Yes/No/Partial:

Yes.

6.2 Strategy Development and Deployment

6.2.1 Quality improvement strategies adopted by the institution for each of the following (with in 100 words each):

• **Curriculum Development:** Our College is affiliated to Karnatak University, Dharwad. Hence, the syllabus is received from KUD. The Board of Studies (BOS), KUD frame the syllabus. Academic calendar is framed at the beginning of the academic year. It also contains Unitization of the syllabus. Innovative teachings, techniques and strategies are devised to improve the learning experience of the students. The Arts students visit Historical places and Archaeology museums. Commerce students visit the established Industries and the Science students visit Botanical gardens, Zoological museums and Industries

• **Teaching and Learning:** Our Institution focuses on the power of learning in relation to the quality of student learning. A number of learning methods are used such as traditional teaching, assignment based teaching, problem based teaching, project-centred learning, self directed specialisation learning and competency based teaching. Students are motivated by giving prizes, cash prizes, medals, etc.

• **Examination and Evaluation:** Examination Committee plans the schedule of conducting the Internal Tests according to the University academic calendar. The timetable of Internal Exam is displayed on the Notice Board. The Internal marks of both theory and practical are uploaded on the University website.

• **Research and Development:** Students are encouraged by the faculty to take part in the research activities by having MoU with ESSAR labs, Hubballi. Our students also take part in Inter-Collegiate Science Exhibition by making working models, etc., under the guidance of the faculty members. Students also take part by presenting papers in State level and National level seminars held at various Institutions. Teachers publish research articles in National and International journals.

• **Library, ICT and Physical Infrastructure / Instrumentation:** Department of Library Information Centre is partially automated which works as a knowledge centre to cope with the New Age technology. Library provides adequate books. IT facilities are available to the students

Computer Lab: Teachers are provided with adequate facilities to Browse Internet and WIFI facility within college premises. LCD, Projectors are provided for ICT enabled teaching.

Infrastructure: Institution has adequate Classrooms, Laboratories, Seminar halls, Subject Departments and Staff-Room. There are 29 classrooms which are airy and well ventilated. Fans, CCTV cameras and other infrastructure facilities and equipments are provided by the Management team. Newly constructed auditorium with a capacity of 350 seats.

• **Human Resource Management:** Different committees are formed to reach the students. These committees are headed by the competent staff members. Both staff and students are nominated in the committee. A steering committee is created above all these committees to develop the co-ordination among all. Meetings are conducted at regular intervals to solve the problems. Suggestions of the committee are brought to the notice of the Management by the Principal and are solved accordingly.

Industry Interaction / Collaboration: To support the research activity the College is having MoU with ESSAR labs, Hubballi. Our faculty Dr.M.S.Yatnatti has research collaboration with KLE Technological University, Hubballi. Physical Education and Sports department has collaboration with Young Stars Sports Club to conduct sports and athletics. We also have collaboration with Anjuman Hospital and Research Centre, Hubli.

Admission of Students: Admission committee works as a bridge between Management and the students. Admissions are given on first come first serve basis. Awareness of the Institution is created among the students of 12th/PU by giving advertisement in the daily News papers, handbills and pamphlets. Senior teachers visit the nearby Colleges and give the idea about the Institution. A separate helpdesk is made at the time of admission for the students and parents to make the process easier, transparent and ward friendly.

6.2.2 : Implementation of e-governance in areas of operations:

- **Planning and Development:** Students attendance and sending messages to Parents is done by OPTRA.Relevant information is uploaded regularly on Institutional website.E-tendering is followed for any infrastructure construction works.
- **Administration:** The information to the staff is conveyed through Whats App group and e-mails. Implementation of Bio-metric for staff. Immediate responses are given to all the concerned offices and departments through e-mail.
- **Finance and Accounts:** The salary of the staff is through HRMS.
Use of Tally and ERP software in the Office .
- **Student Admission and Support:** Online submission of admission information to the University. Uploading of IA marks and Practical examination marks is online.
College has helping counters such as Admission form filling, Exam form filling and Scholarship form filling to help the students.
- **Examination:** Our entire College campus is under CCTV surveillance.

Best Practices I

Title - Mushroom Culture Training :

I] Introduction – Mushrooms has a high nutritional value and high calorific value. Looking to the nutrition value of the mushrooms, the mushroom have more uses in modern culinary cuisine than any other food crop. The Culture of mushroom can be done in any room, shed, basement and garages ect. The Culture of mushroom may be easily carried by the rural student's agriculture background as they will be having shed or from house with proper ventilation. The students can take mushroom Culture as a rewarding hobby attending to their daily learning chores with minimum investment.

Three kinds of mushroom can be cultured button mushroom (*Agaricus bisporus*) straw mushroom (*Voluvariella oluacea*) and Oyster mushroom (*Pleurotus sajor-caju*) are cultured in India.

II] Goals / objectives

The main objective of mushroom culture is as follows.

- * To impart vocational training to the prospective growers and to provide forward and backward linkage by extending technical knowledge and guidance.
- * Mushroom culture reduces vulnerability to poverty. It strengthens livelihoods through fast yielding. It is a nutritious source of food and is a reliable source of income.
- * Mushroom culture provides employment opportunities for women and the youth of the country.
- * Mushroom culture does not includes any significant capital investment and nor does it require any access to land.
- * Mushroom Culture can be done on part-time basis and requires very less maintenance.

III] Context

- * The mushroom market is growing day by day due to culinary, nutritional and health benefits.
- * Mushroom culture also shows potential for use in waste management. It is significant in managing farm organic waste.
- * Culture of edible mushrooms is becoming increasingly successful in various regions. This is due to many prevalent external factors such as short intervals between harvests; very low input requirement for production, minimal land requirement and the abundance of wasted agricultural biomass.
- * Mushroom production being an indoor activity, labour intensive and having high profit venture, it provides ample opportunities for employment.

IV] Practice

1. Preparation of substances :

- * Preparing the straw - well-dried, long straws are tied together in bundles of 8-10cm in diameter.
- * Later excess water is allowed to drain off.

2. Preparing the spawn - 2-5 to 3-0 KG spawn is needed for 100KGs of straw.

- * Open the container and press it gently to make sure that all the spawn has been employed.
- * The germination rate can be improved by mixing the spawn with rice husk at a ratio of 1:1.

3. culture in polythene bags:-

- * Polythene bags are used as mushroom beds. Open the bags and put a handful of straw in it.
- * Press the straw tightly so as to make a 3-5cm thick layers at the bottom of the bag put a straw spawn layer in this manner add 3-4 layers of the spawn straw.
- * The bags with the nylon rope and hang them in the mushroom house. The bag should be pointed upwards.
- * The bags should be at a distances of just a few centimetres.

4. Preservation of the bag :-

The bag should be covered to guard it against wind and light print; it should also receive good ventilation.

After 25-30 days mycelium will develop in the bags

VI] Progress - Training programme for quality mushroom spawn production was carried out successfully. A number of students were educated and trained in the production of spawn on scientific lines. The training was imported in 3 phases. This training has helped them to start new ventures and is encouraged to develop their own production units.

VII] Problems - The research indicates that the nature of problems vary with extent and type of mushroom culture standing, it can be said that the problems generally faced in mushroom culture are.

1. Cleanliness: Its cleanliness is an impatient procedure. But if attention is not paid to the aspects of hygiene, it will reduce its sale.
2. Sterilization: The process of sterilization is crucial. It blocks sterilizing substrate for spawn or culture media. It has an impact on production.

Note : This practice has created awareness among the students. Further, they are creating awareness of health, hygiene and the importance of cleanliness among the slum dwellers. They have-not's struggle to meet the two ends, hence they are not able to pay need to the hygiene. Besides, the basic cure amenities are not easily available is them. The students try to provide those civic facilities to them.

Our institution was established in 1965 at the centre of the city. Its foundation was laid with a motto of “services into humanity” keeping this as its vision, the college was shifted to an under developed area in 1982. This area has economically backward families. The children of these families are given admission. As the vision of institution is to serve humanity through education, there is no cut off percentage for admission.

The institution is moving ahead with a vision and mission of excellence is to adopt new quality strategies. The emblem of the institution carries the prayer; 'O MAY LORD GIVE UNTO ME MORE KNOWLEDGE'. College has the tradition of reciting the verses, from the Holy Quran, Shlokas from the holy Bhagwad gita and Psalm from the holy Bible during the beginning of every programme. This tradition is followed to keep to the multi-cultural heritage of the nation.

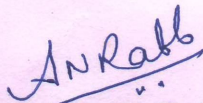

Many activities in the campus are promoted to add to the harmony and integration of the diverse culture amongst the students. Religious tolerance is inculcated amongst the students and the staff.
