Report of the event

ICT classes are conducting every Saturday for final year students

ICT skills are about understanding and applying a range of computer programmes, software and other applications. These include: word processing, spreadsheets, databases, power points and search engines. In addition to technical skills, associated skills include creativity and analytical skills to apply the right ICT skill to an activity. Basic ICT skills are required in any position.

Main attributes include

- The ability to use computer operating systems, to access software programmes and manage the basic functions of a computer.
- Being able to confidently use core computer programmes to produce common digital information such as Word documents and PowerPoint presentations.
- Organise and analyse information with the help of computer spreadsheet and database software
- The ability to communicate and interact with other ICT users through the use of internet and email.
- Create and engage with digital information for a specific task
