**NEHRU ARTS, SCIENCE AND COMMERCE COLLEGE
GHANTIKERI, HUBBALLI – 580020 (KARNATAKA)**

(Re-accredited with 'A' Grade by NAAC Consecutively in 3 Cycles)

IQAC-INITIATIVE

DEPARTMENT OF PHYSICS

Organises

INTERNATIONAL WEBINAR

ON

RECENT DEVELOPMENTS IN SPACE SCIENCE

Date: 14th July, 2021 Time: 3.00 pm

Resource person :

Dr. Shrinivasrao R. Kulkarni

QA Manager & Instrument Scientist,
For ULTRASAT Camera,
Deutsches Elektronen-Synchrotron (DESY), Zeuthen
Germany.

NEHRU ARTS, COMMERCE AND SCIENCE DEGREE COLLEGE
GHANTIKERI HUBLI -580020
(RE-ACCREDITED WITH "A" GRADE 3RD CYCLE BY NAAC)

INTERNATIONAL WEBINAR

1.	Welcome speech :	Dr. S.M. Chillur Head, Dept. of English
3.	Introduction of college by principal	Prof. Sayed Feroze Ahmed Principal
4.	Introduction of Resource Person	Heena savanur Faculty Dept, of Physics
5.	Presentation by Resource Person	Dr. Shrinivasrao R. Kulkarni
6.	Presidential address:	Prof. Sayed Feroze Ahmed Principal
7.	Vote of thanks :	Smt. Quadsiya atawani Faculty Dept, of Physics

Dr. Shrinivasrao R. Kulkarni

QA Manager & Instrument Scientist,
For ULTRASAT Camera,
Deutsches Elektronen-Synchrotron (DESY), Zeuthen,
Germany.
e-mail: shrinivasrao.kulkarni@desy.de

Education:

- Ph.D. in Physics at Department of Physics, Bangalore University, Bangalore, INDIA, 2005.
Thesis Title: Study of Radiation Induced Effects in Semiconductor Devices.
- M.Sc. in Physics (Nuclear & Particle Physics Specialization) at Department of Physics, Karnataka University, Dharwad, INDIA, 1998.

Professional Background:

1998 -1999	Part-time Lecturer, at JSS College, Dharwad, India.
1999 -2002	JRF at Department of Physics, Bangalore University, Bangalore, India.
2002 -2005	Senior Research Fellow-CSIR, at Dept. of Physics, Bangalore University, Bangalore, India.
2005 -2007	Lecturer (equivalent to assistant professor), at CPGS, Jain University, Bangalore, India.
2007 -2008	Post-Doc., at EECS, Vanderbilt University, Nashville, TN, USA.
2008 -2009	Instrument Scientist: Exomars/TRAS at CAU, Kiel, Germany.
2009 -2020	Co-I and Instrument Scientist: EPD/HET at CAU, Kiel, Germany.
2012 -2020	Co-I and Instrument Scientist: EPD/EPT at CAU, Kiel, Germany.
2019 -2020	Instrument Scientist, MEPS of L-5 mission of ESA, at CAU, Kiel, Germany.
Jan-May 2020	Project Manager for MEI & HEI of Daedalus mission of ESA, at CAU, Kiel, Germany.
June 2020- till date	QA Manager & Instrument Scientist for ULTRASAT Camera, DESY, Zeuthen, Germany.

Few Recent Publications:

The first year of energetic particle measurements in the inner heliosphere with Solar Orbiter's Energetic Particle Detector

Astronomy & Astrophysics, 2021.

.....S.R. Kulkarni (as a co-author) ...

First Measurements of the Radiation Dose on the Lunar Surface

Science Advances, 2020; 6 : eaaz1334, 25 September 2020.

.....S.R. Kulkarni (as a co-author) ...

The Lunar Lander Neutron and Dosimetry (LND) Experiment on Chang'E 4

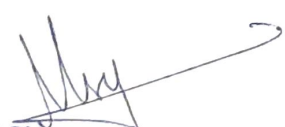

Space Sci Rev (2020) 216:104. <https://doi.org/10.1007/s11214-020-00725-3>

...S.R. Kulkarni (as a co-author) ...

The Solar Orbiter Energetic Particle Detector (EPD)

Astronomy & Astrophysics, 642, A7 (2020). <https://doi.org/10.1051/0004-6361/201935287>

..... S.R. Kulkarni (as a co-author)

Head of The Department of Physics,
Nehru Arts, Science & Commerce, College,
HUBLI - 20

PRINCIPAL
Nehru Arts, Science & Commerce
Degree College, HUBBALLI-20.

I am Shrinivasrao Kulkarni, currently working as a Quality Assurance Manager for ULTRASAT Camera at Zeuthen. The ULTRASAT mission is a unique project in which DESY Zeuthen group involved and building its camera. The camera is heart of this mission hence the quality & cleanliness of camera is very important to achieve the science definition of the mission. Both quality and cleanliness are challenging as it is a space mission (quality) and observations is in UV domain at low temperature (cleanliness). I am working as a Quality Assurance Manager for this camera, my job is to maintain the quality of the products as per the space mission guidelines as well as cleanliness of the camera. We (ULTRASAT camera team) passed the Preliminary Design Review (PDR) of camera, which was held on 14- 15th December 2020. I presented about the "Quality, cleanliness, assembly, integration, verification and test" activities of the camera during the camera PDR.

In past I worked at Kiel University, Kiel, Germany as the Lead Scientist of EPT-HET and a Co-Investigator of EPT-HET of EPD (EPT- Electron Proton Telescope, HET- High Energy Telescope, EPD- Energetic Particle Detector). At University of Kiel I involved in design, assembly, calibration and over all activities of EPT-HET of Solar Orbiter mission (European Space Agency (ESA) mission). These telescopes were capable of detecting & identify few 100 keV to few GeV particle of solar and cosmic ray particles. As a lead scientist, initial design stage of instruments performed simulations to design, coordinated all activities of these instruments, like scheduling and planning of sensor level activities (this includes procurement of detectors & crystal, glues, arranging resources for test & assembly, and plan activities of all members of the team), actively involved in development of silicon detectors of these instruments and lead all telecons related to detector development and arranged face-to-face meetings with manufacturer team. Arranged bi-weekly meeting during design and development activities of these instrument and actively involved in scientific and technical discussions. This work was involved engineers, technicians, students and internal experts as well as external experts. Apart from above mentioned activities. I tested independently number of Hamamatsu Silicon PIN photodiodes, Canberra Si PIPS detectors, and Si-Scintillator detector systems. Calibrated HET unit with high energy Heavy Ions at NIRS, HIMAC, Chiba, Japan, EPT unit at accelerator facility of Physikalisch-Technische Bundesanstalt (PTB), Braunschweig, Germany. The plan of all these accelerator based tests and calibration mainly made by me with the help of accelerator facilities. As well as these units were calibrated with cosmic muons and radioactive sources (gamma, electron and alpha sources Co^{60} , Ba^{133} , Bi^{207} & Am^{241}) and analysed all these calibration data. Outcome of results were presented in international conferences and workshops. I worked as a 'Category A - radiation user' at IEAP, CAU, Kiel for about 10 years.

The qualification of units carried-out at Airbus Defense and Space premises, Portsmouth and Stevenage, UK, EPD level integration at Alcala and Valencia, Spain. I have actively participated and operated the instruments to check its performance. Also I was a part of delivery team member of EPT and HET, demonstrated that they were working as expected at the time of delivery and worked as a Kiel team representative at the time of integration of EPT-HET on to spacecraft.

In addition to this, I was in-charge of "Clean Room" ISO class 8 for about 7 years, the cleanroom was 49m² big with many facilities like vacuum chamber, gluing station, particle detector testing equipment and other basic facilities and instrument. The whole assembly activities of EPT-HET and other units like STEP and LND were carried out in this clean room. As a cleanroom in-charge, I was responsible for the following activities

1. Management of activities of the cleanroom,
2. Coordinating activities of different groups those were utilizing the cleanroom,
3. Making schedule for all activities of the cleanroom and its maintenance,

Head of The Department of Physics
Nehru Arts, Science & Commerce, Coll.
HUBLI - 20

PRINCIPAL
Nehru Arts, Science & Commerce
Degree College, HUBBALLI-20.

4. Preparing annual budget for the cleanroom (for maintenance and procurement of new instrument) and
5. Supporting technical staff for cleanroom activities.

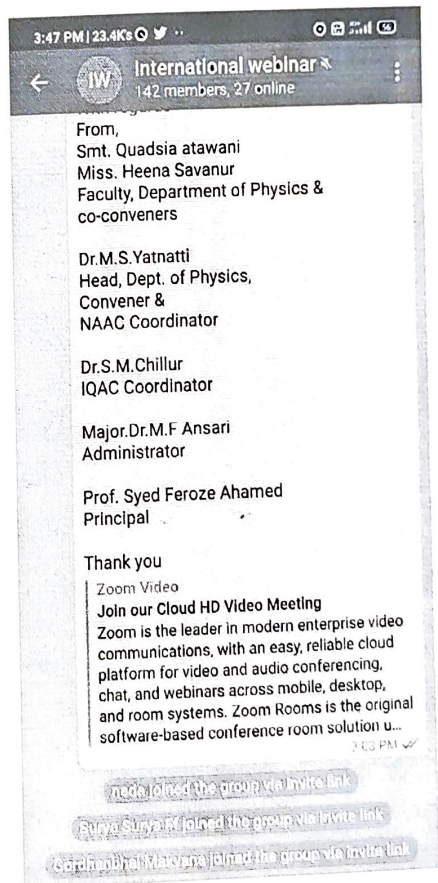

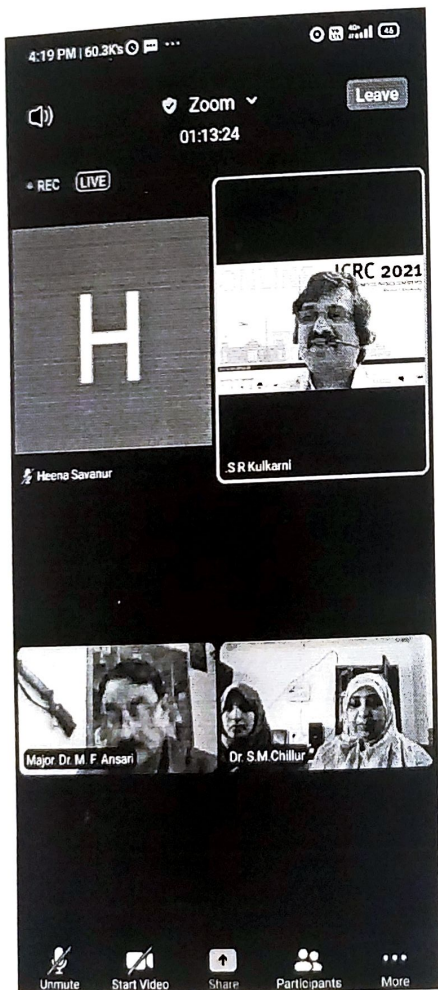

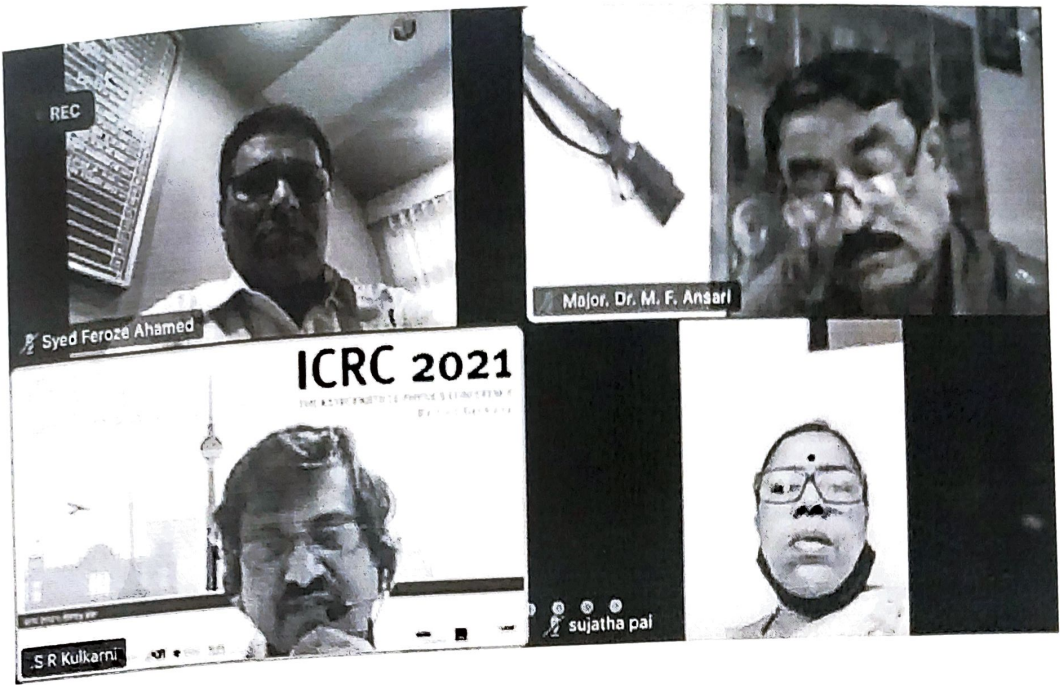

Apart from above mentioned activities, I had been involved little extent in "Lunar Lander Neutron and Dosimetry (LND)" instrument activities. This instrument was capable of detecting fast neutrons as well as thermal neutron. The first results are published in 'Science Advances', I am one of the co-authors for this publication. Also I worked as an instrument scientist of Medium Energy Particle Spectrometer (MEPS) of ESA's Lagrange-5 mission and **worked as a short time manager of High Energy Instrument (HEI) and Medium Energy Instrument (MEI) of Daedalus mission of ESA.**

I did master course in physics with **Nuclear & Particle Physics** as a specialization, and I worked in the area of "radiation effects on semiconductor devices" for my Ph.D. course. For my Ph.D. work all experiments were carried out at Inter University Accelerator Centre, New Delhi and ISRO Satellite Centre, Bangalore. During this time I worked as a **coordinator for Single Event Effects experiments conducted by ISRO Satellite Centre's scientists, at Inter University Accelerator Centre, New Delhi, India.** Also I worked at Vanderbilt University, Nashville, TN, USA as a post-doc about a year before joining IEAP, Kiel, during this time investigated Total Ionizing Radiation Effects on high-*k* Metal Oxide Semiconductor Devices.

During development of EPT-HET instruments, I prepared many documents which were reviewed by ESA experts; prepared many test procedures, test plans and test reports and calibration reports. **Author or co-authors to more than 30 articles in reputed journals and presented my research work at more than 55 international/national conferences.** Reviewed research articles of IEEE Transactions on Device and Materials Reliability, Journal of Physics: Condensed Matter, Applied Physics A, Semiconductor Science and Technology and some international conference articles. Also reviewed space programme project proposal, reports, documents, and evaluated Ph.D. thesis. Chaired some sessions in EPD workshops, meetings and international conference.

REPORT ON RECENT DEVELOPMENT IN SPACE SCIENCE

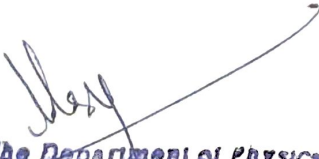

Under the IQAC initiative the Department of Physics organized an international webinar on "Recent development in space science" on 14 July 2021 from 3:00 pm to 5:00 pm. Dr. Shrinivasrao R Kulkarni, Q.A. Manager and international scientist for ultrasat camera Deutsches elektronem-synchrotron (desy) , xeuthen from Germany was the resource person for the online programme.

Many teachers and students attended the online programme from India and Germany. We received 402 responses, 200 participants and it was an excellent programme.

Outcome:

- Students gain the knowledge on recent developments that are taking place in space science.
- As the resource person is working as a scientist in Germany our students could get the glams of recent experiments in that field in Germany.
- Students were given exposure to career opportunities in space science.
- Teaching staff have also become familiar to new methods and technologies in space science.
- Recent developments in materials used in space science was covered in the webinar.

Principal presided over the programme which was well organized and highly appreciated.
